

VEHICLE CAMPING

The only lot that has open space for new vehicle camping is the SCOF lot.

SCOF is open camping, and it opens at 9am Wednesday pre-Fair. While we do reserve a very small portion of space in SCOF for some staff operations, 95% of the space is not reserved and is settled first come, first served.

Camping Crew staffs the SCOF gate until public Fair starts. At that point security takes over the SCOF gate. Once Fair starts there is no in and out of vehicles from SCOF. For vehicles, once Fair starts the SCOF gate becomes exit only until next year.

SCOF is both tent and vehicle camping. You can come in and pitch a tent, or you can come in and sleep in your camper. There is no shade in SCOF.

Only vehicles that are camped in are allowed into SCOF lot. We don't have enough space for "car camping", ie parked cars next to tents.

There is a substantial extra fee for large camping vehicles, anything over 22'. While we want to support camping vehicles, Fair has very limited space that facilitates camping vehicles. Anything larger than a van or small camper is agony for us because of its inefficient use of space.

A Fair Vehicle Sticker is required on all camping vehicles in SCOF. Outta Site passes do not qualify. The amount of Fair Vehicle Stickers is limited because we have limited space on site for vehicles.

For camping vehicles over 22' (total length includes a tow vehicle that remains with the haul), an Oversized Vehicle Sticker is required in addition to the Fair Vehicle Sticker.

The Oversized Vehicle Sticker is purchased at the Registration Booth.

Any Elder interested in vehicle camping may contact John K at southfaircamping@gmail.com
